

Climate Resilience Team Meeting #2. Transportation Vulnerability Assessment

Wednesday, March 20, 9:30 AM to 11:30 am

260 N San Antonio Rd B, Santa Barbara, CA 93110

Wisteria Conference Room

Remote Attendance Information:

Skype Meeting URL: <https://meet.lync.com/vsecorp-energetics/cgillespie/1DHM2CN4>

Dial-in: **1.804.724.7673**

Access Code: **4526 1260#**

Meeting Intention:

Convene the Climate Resilience Team and key stakeholders to collect input on the draft Santa Barbara County transportation network vulnerability assessment, coordinate public outreach for the project, and begin exploring resilience actions for our transportation system.

Meeting Goals:

1. Recap key preliminary findings from the draft transportation vulnerability assessment and collect input to strengthen the analysis
2. Share lessons learned about communicating climate change impacts to the public and gauge interest in establishing a “speakers’ group” that will support coordinated public relations efforts for this project.
3. Begin identifying existing and planned resilience measures for the most at-risk and crucial transportation infrastructure, as well as gaps that need to be addressed

Agenda:

9:30 a.m. Welcome (starting promptly)

- Brief roundtable introductions

9:35 a.m. Meeting #2 Kickoff

- Review agenda and receive key projects updates since last meeting - Andrew Orfila, SBCAG (5 min)
- Revisit project vision and outcomes to anchor meeting discussion - Cameron Gray, CEC (5 min)

9:45 am Transportation Network Vulnerability Assessment (*Chris Gillespie*)

- Technical analysis, key preliminary findings, and risk framing - Chris Gillespie, Energetics (10 min)
- Group Input Session (15 min)

10:10 am Breakout Session 1: Subjective Risk Scoring

- Small group breakout: use Energetics subjective risk scoring framework to rate the significance of risks from transportation network vulnerabilities. (20 min)
 - What effect will transportation disruptions have on the movement of people and goods, the operation of key community services, and first response for emergencies?
- Report out to full group: What were the main risks you considered? Do your scores differ from the report or not? If so, why did you make changes? (10 min)

10:40 am Public Outreach Plan Update

- Review and discuss strategies for the project's Public Outreach Plan (5 min)
 - Discussion: Lessons learned for communicating climate change impacts (10 min)
- Ask: would any CRT members or stakeholders be willing to volunteer for a project Speaker's Group that will support coordinated outreach and engagement efforts for the project? (5 min)

11:00 am Next Steps: Identifying Resilience Actions

- Resilience and adaptation frameworks - Chris Gillespie, Energetics (5 min)
- Group Discussion - Identifying resilience actions (15 min)
 - What resilience measures have already been implemented to protect and fortify key roads, railways, harbors, airports, bicycle/pedestrian pathways?
 - What transportation resilience measures are planned and how far off is implementation (i.e. are projects still in design, funded, out to bid, etc.?)
 - What is missing from the resilience project pipeline for our region's transportation network that needs to be added?
 - What barriers to implementation need to be addressed?
 - How and when would be the best way to address these barriers so we can overcome them?

11:20 am Meeting Close & Appreciations

- Next meeting, action items

Thank you!
