### CURRENT PROJECT DESCRIPTION

This project proposes to construct a new interchange at Hwy 101 and McCoy Lane in the City of Santa Maria. The project proposes to extend existing McCoy Lane on the west side of Highway 101 and create an undercrossing of Hwy 101, as well as a "diamond" configuration interchange. The new proposed interchange would mitigate current and forecast congestion at the adjacent interchanges of Highway 101 at Santa Maria Way and at Betteravia Road due to development on the east side of 101. The project has not yet been initiated and its need is being considered as part of the City of Santa Maria's General Plan update.

### ASSUMPTIONS

Information is based on approval of City of Santa Maria's General Plan update in 2027 that's shows this project is still part of City's plan.
